Consulting Exploration Geologists

Project Management
GIS Data Management
Property Evaluations
Geochemical Exploration

43-101 Reports
Data Archeology
GIS Training
Prospect Generation

We are contracting / consulting exploration geologists based in the heart of Nevada's gold country and willing to travel. Our experience is primarily in gold and base metals but are also active in exploration for lithium and other energy metals.

Please contact us if you can use seasoned and enthusiastic help for your next project.
